Indian Organic jaggery

Indian organic jaggery, also known as "Gur," is a traditional and unrefined sweetener made from sugarcane juice. Unlike refined sugar, jaggery is produced using natural methods without any chemicals or additives, making it a healthier alternative.

Rich in minerals like iron, calcium, and magnesium, organic jaggery is known for its nutritional benefits and is often used in traditional Indian sweets, beverages, and Ayurvedic remedies. It aids in digestion, boosts immunity, and provides natural energy, making it a preferred choice for health-conscious consumers worldwide.

At Chavan International, we take pride in offering 100% organic jaggery, sourced from farms that follow sustainable and chemical-free agricultural practices. Our jaggery is available in various forms, including blocks, powder, and liquid, ensuring premium quality and rich taste for international markets.

Indian Sugar

India is one of the largest producers of premium-quality sugar, known for its rich taste, fine texture, and purity. Indian sugar is widely used in beverages, bakery products, confectionery, and daily household consumption.

Processed using advanced refining techniques, Indian sugar meets international food safety standards while maintaining natural sweetness and consistency. Whether for industrial use or direct consumption, Indian sugar is a preferred choice worldwide.

At Chavan International, we ensure that our sugar is free from impurities, moisture-controlled, and packed with care to preserve freshness. We offer customized packaging as per international buyer requirements, making our sugar ideal for global markets.
